Thank you for your response. But if you can view my NMCN dashboard, you'll see that I applied for licence renewal on 19th June 2023 and it has been approved since and it's showing the expiry date to be 30th June 2026. So, please; kindly check your records properly and help respond to WES please. I have been waiting since April 27th when WES sent you their first mail and my licence was active then.
